

Johnstown PolkaFest

This Weekend May 29-31

PENNSYLVANIA - The St. Mary's Johnstown PolkaFest will be held May 29 - 31, 2009. PolkaFest began in 1998 thanks to the aspirations of local polka DJ's "Polish Bill" and Deb Marano. The Greater Johnstown/Cambria County Convention and Visitors Bureau and Bill and Deb Marano have created a festival that keeps ethnic and local traditions alive. This event now attracts several thousand attendees! The festival is located in the Cambria City section of Johnstown, Pennsylvania, 60 miles east of Pittsburgh. For event updates, please visit www.visitjohnstownpa.com/polkafest or phone the Bureau for more information at 1-800-237-8590. Hope to see you at the festival!

THE IMPORTANCE (CONTINUED FROM FRONT PAGE)

will mark the 23rd census of the U.S. It is a constitutional right of all U.S. residents to participate in the census.

The census directly impacts every community in the U.S. including the Polish-speaking community. The census affects how \$300 billion dollars in federal funds is allocated yearly for states. The areas with the highest population counts will get the most funding. Census data guides local decision-makers on where to build senior citizen centers, healthcare facilities, schools, police stations, fire departments, new roads, and other development.

The 2010 Census has the shortest questionnaire in history—this simple form takes just a few minutes to complete and send back by mail. The 10 easy questions ask for such information as name, gender, age, date of birth, race, and

whether respondents own or rent their home. There are no questions about immigration status or social security numbers. All responses are used for statistical purposes only, are strictly confidential and are not shared with anyone, including any other federal agency.

The first visible sign that census is approaching is address canvassing. Census workers knock on doors to verify every address throughout the United States. They update this information electronically using hand-held computers. The Census address list is the most comprehensive list in the U.S. and is used for the nation's 911 operations, U.S. Postal Service, and GPS technology (MapQuest, Google Maps). For more information about the history of the United States Census, visit www.census.gov/history.

ing professional growth and economic opportunities for Polish-Americans," states PABPA President Andrew Bondarowicz, Esq. "By connecting job seekers with those entities looking for qualified candidates, PABPA can play an important roll in helping our brethren through the economic crisis."

Some of the industries represented include: banking, financial, law, engineering, information technology, accounting, project management

and other professions. The REP program is also complemented by the standard job board that can be found on the website at www.pabpa.org.

REP can also benefit other members as many companies offer bonuses and other benefits for employees who refer qualified candidates.

Time and Silence) topped up the large gift bag that Minister Zdrojewski had brought with him from Poland to the USC campus.

Although the Minister had visited the United States on numerous occasions, calling on New York and Chicago among others in the past, this was his first visit in Los Angeles. Having met with representatives of the Polish community at the opening of the 10th Polish Film Festival in Los Angeles and after touring the USC campus, the Minister expressed his interest in returning to the West Coast in the future. An avid and accomplished photographer, the Minister delighted in taking photos throughout his visit in the Southern California. He will be warmly welcomed should he decide to visit our campus again.

victims of the September 11 attacks should not be forced to endure having terrorism's most hardened killers housed in our State. New Jersey simply should not be made a clearinghouse for enemy combatants, and I call on my colleagues in the Legislature, and on Governor Corzine, to join me in rejecting any attempt to bring them to the Garden State," concluded Assemblyman Webber.

to the NYC Teaching Fellows Program to try to close the gap between these two groups. And regrettably, they will likely be denied, on the same basis as I was. I just hope it won't take the program a year to convey the news. Or that the government will, perhaps, remember where we are: in America, the country par excellence of immigrants, the country built on equality, the country where children with special needs have a right to education but not the country where those children are given pedagogic and financial priority over others.

(ICE) agency has released a report that border gangs were becoming increasingly ruthless, targeting rivals, along with federal, state and local police. Citing a dramatic rise in border violence over the past three years, it called it "an unprecedented surge."

"Good fences make good neighbors" says the famous Robert Frost poem, Mending Wall, but a vastly increased border patrol and other steps are needed now to ensure the safety of Americans everywhere within the nation. It must be coupled with a renewed and vigorous effort to thwart the influx and to encourage as many of the estimated twelve million illegals living among us to return home.

Note: One of the best websites for information about this problem is www.borderfirereport.net. I recommend you bookmark and visit it to gain the insight and information necessary to demand congressional and White House action.

POLISH FILM

Polish Culture will be exposed abroad and noticed by a wider American and international audience. "This is very important, what is happening in here right now and every year in Los Angeles. I am, and many friends of our film industry family are, very thankful for the Film Festival in Los Angeles," said Mrs. Alina Janowska.

Many Americans, Polish, and Polish Americans are also very thankful that we have the opportunity to see the art of Polish cinema and observe where Poland is now; how Poland is growing and changing. So we can laugh and cry together during the film screenings in the Los Angeles and Orange County movie theaters.

won and, as a reward, they got to occupy Eastern Europe for the next half century while our Western Civilization got flushed down the toilet and into the New World Order cesspool.

Even America's greatest General George S. Patton stated that we were fighting the wrong enemy. Finally, the anti-American subversives, within the USA, shut General Patton down just as they shut down Senator Joseph McCarthy who was hot on their heels.
